METALFORM

OS2 40

La massima qualità in un sistema ridotto all'essenziale. Studiati per i progetti di interior design, i profili tubolari, agili e leggeri, riproducono nelle partizioni vetrate la stessa immagine dei serramenti OS2 a taglio termico, creando un effetto di continuità fra interno ed esterno dell'edificio.

The maximum quality in a system reduced to the essentials: OS2 40. Designed for interior design projects, the agile and lightweight tubular profiles reproduce the same image of the OS2 windows and doors in the glass partitions, creating an effect of continuity between interiors and the building envelope.
